The Terry Foundation was established in 1986 by Nancy M. and Howard L. Terry out of a desire to help young people to help themselves. The Foundation’s goal is to improve and develop the State of Texas by assisting graduates of Texas high schools to attend The University of Texas at Austin and Texas A&M University each year. The Foundation hopes these students will have a significant impact on the future leadership of our state and nation. To achieve this goal, The Terry Foundation awards substantial scholarships to students who meet the exacting standards set by the founders.

Mr. and Mrs. Terry are both long-time residents of Houston, Texas. Howard Terry has been active in businesses of banking, investment, construction, real estate, and oil and gas in the Houston area for many years. He now feels that his finest achievement was the establishment of The Terry Foundation. Nancy Terry completely concurs.

The primary purpose of The Terry Foundation is to identify young people who have the promise of future distinction as a leader and to assist them in developing their future and the future of those around them.

Terry Foundation awards are based on the criteria of leadership, character, scholastic ability, need, and participation in activities. The competition for acceptance in the program is keen. A potential Terry Scholar must demonstrate leadership potential, a desire to enrich the general welfare of the community, and academic ability. A well-rounded personality, grounded in the desire to succeed, and a demonstrated history of community leadership, are the key qualities sought by The Foundation. Mere academics or need alone is not enough.

To apply for a Terry Award, candidates must graduate from a secondary school in the State of Texas, public or private, and
be accepted to attend either The University of Texas at Austin or Texas A&M University. Currently, nominations are made by the scholarships or financial assistance office at the student's university of choice. The Directors request a letter of recommendation from each applicant's high school English or Mathematics teacher. Other letters of recommendation that shed light on an applicant's leadership and desire to succeed are encouraged.

The applications of nominees are screened first by the respective university's financial assistance office and second by the Foundation Board of Directors. Candidates who progress successfully through this preliminary process are invited to Houston, Austin or Dallas at The Foundation's expense, for a personal interview with the Directors and others. After the interviews, the Terry Scholars are selected for the coming year.

In the first year, 1987-88, The Foundation awarded 16 scholarships. They were joined in 1988-89 by 17 additional recipients. There are currently 380 Terry Scholars at the University of Texas at Austin and Texas A&M University. One hundred thirty-seven scholarships were awarded for the class of September, 2000. The Foundation anticipates that the number of scholarships awarded will increase every year.

Each Terry Scholar is awarded an annual stipend depending upon prior awards and financial need. The Foundation intends to always be the principal financial support for each Scholar. The awards are renewable semester to semester, depending upon satisfactory progress, and are designed to cover four years of study for an undergraduate degree.

The founders hope that The Terry Foundation will continue to grow and prosper with an increased number of awards each year and that the Scholars will become a family who will want to participate in the future of The Foundation and to help those who follow them.
Texas A&M University, the Lone Star State's first public institution of higher learning, is one of the select few universities in the nation to boast triple land-grant, sea-grant, and space-grant status.

The 124-year-old university is located in College Station, a medium-sized community that is approximately equidistant among the state's most metropolitan areas. Its 5,200-acre campus is one of the largest in the nation and is the home of the George Bush Presidential Library and Museum, which opened in November of 1997.

Texas A&M has long been known nationally for its school spirit and traditions, including the fact that its students stand throughout football games as the Twelfth Man to indicate symbolically their willingness to suit up and play if needed. More recently, it has expanded its reputation to include national recognition for attracting top students, innovative research programs, and exceptional academic programs in a host of areas.

The university's student body includes some of this country's best students. Texas A&M, for example, has consistently ranked among the nation's top 10 schools in enrollment of new National Merit Scholars. In all, it has more than 2,500 students receiving major four-year academic scholarships and over 20,000 receiving some form of scholarship aid.

With 44,026 students, the university ranks fifth nationally in overall enrollment. Among those students are 7,291 graduate and professional-school students as well as students from all 50 states and more than 110 foreign countries. Women now represent approximately 47 percent of the student body at the school that was once all male and all military. Although military training has not been mandatory...
for more than a quarter of a century, some 2,000 young men
and women still choose to participate in the university's Corps
of Cadets. The Corps continues to commission more military
officers than any institution except the service academies.

Texas A&M also ranks tenth nationally in endowment
value, reflecting its ability to support world-class faculty and
facilities and other aspects of the academic process. The
faculty includes a Nobel Laureate and a winner of the
National Medal of Science, five members of the National
Academy of Sciences, and 20 members of the National
Academy of Engineering.

The university's campus has numerous state-of-the-art
laboratories and research facilities, including a research
cyclotron, now one of only three of its caliber in the world.
The university also has a leading chemical characterization
center and various installations that enable it to be in the
forefront in biotechnology and numerous other disciplines in
both the life and physical sciences and in engineering.

The work of an outstanding faculty in exceptional facilities
has placed Texas A&M in the top 10 in rankings of major
research universities by the National Science Foundation.
The most recent NSF ranking placed Texas A&M tenth,
and the university's volume has since grown to approximately
$394 million annually. The research projects supported by
that funding encompass all of the university's academic
colleges — agriculture and life sciences, architecture, business
administration, education, engineering, geosciences, liberal
arts, science, and veterinary medicine.

Not to be limited by state or national boundaries, Texas
A&M is firmly committed to being a vital part of the "global
village." Its international outreach efforts include memoranda
of understanding with more than 70 foreign institutions
and organizations in Europe, Asia, and South and Central
America. In addition, Texas A&M operates the Santa Chiara
Study Center in Castiglion Fiorentino, Italy, and a facility in
Mexico City, also many College Station-based
multidisciplinary groups are devoted to enhancing research
and scholarship opportunities both at home and abroad.

Now in its 118th year, the University of Texas at Austin is recognized among major universities for its eminence in research, teaching, and public service. It is the oldest and largest component of the 15-campus University of Texas system. Since its opening in 1883, the University has grown from a 40-acre tract to a main campus of more than 410 acres and 119 buildings.

By attracting capable individuals from every segment of society, the University seeks to maintain a student body that is diverse in nature but united in its pursuit of higher education. UT Austin students come from 50 states and 121 foreign countries. The fall 2000 enrollment was 49,996 students. Minority and international students constitute 36.6 percent of the student population. The backgrounds of the students are richly varied ethnically and geographically.

The faculty of UT Austin is composed of 2,900 professors and lecturers supported by approximately 2,900 assistant instructors and teaching assistants. They include the winner of the 1967 Pulitzer Prize in History, a recipient of the 1968 Enrico Fermi Award, a 1970 National Medal of Science recipient, the winner of the 1977 Nobel Prize in Chemistry, and the winner of the 1979 Nobel Prize in Physics. The University has more than 1,150 endowed academic positions — 248 chairs, 515 permanent and visiting professorships, and 393 fellowships and lectureships. From the efforts of individual faculty members to work of 92 organized research units, scholarly inquiry covers a broad range of disciplines — literally spanning the known universe from the inner workings of atomic nuclei to the far reaches of space.
In addition to teaching and research responsibilities, faculty members maintain regular office hours and many serve as academic advisers to students. Although UT Austin is a large university, students will find most classes small enough to allow for considerable faculty and student interaction.

The University has the fifth largest academic library system in the United States. In Anthony Hobson's Great Libraries, it is cited as one of the 32 great libraries of the world. More than 7.7 million volumes are located in 19 different libraries on campus. The system is comprised of four separately administered units: the General Libraries, the Center for American History, the Humanities Research Center, and the Tarlton Law Library, the fifth largest academic law library in the nation. The General Libraries consist of the Perry-Castañeda Library (the main library), the Undergraduate Library, the Collections Deposit Library, four special collections, and nine branches. Special collections include the Nettie Lee Benson Latin American Collection, the Asian Collection, the Edie and Lew Wasserman Public Affairs Library, and the Middle East Collection.

The University campus also extends way beyond the boundaries of the main campus, incorporating research centers across the state that keep the University at the forefront of study in such areas as geophysics, astronomy, marine science, history, literature, and engineering.

Founders

Howard L. Terry

Native Texan Howard L. Terry was born in Milam County in 1916. He attended the University of Texas on an athletic scholarship and earned his B.B.A. in 1938. He was employed by Procter & Gamble until 1942, when he entered the U.S. Navy, where he served as a P.T. Boat commander in the Pacific during World War II.

He later returned to Procter & Gamble, from which he was recruited to set up a chain of appliance stores, where he served as General Manager until 1951. At that time, Terry went into business for himself in lumber, building, and development, building several residential subdivisions in Texas and other states.

Over the following years, Terry founded several businesses in various fields, including Business Funds, Marathon Manufacturing, Crutcher Resources, Allied Bancshares, and Farm & Home Savings. Beginning in 1979, he became a director and chairman of the executive committee of Penn Central Corp., a position he held until 1986. In 1987, he founded the Terry Companies, a multi-state corporation involved in oil and gas exploration and development.

Howard and Nancy Terry are both long time residents of Houston, Texas. Mr. Terry enjoys golf and is actively involved in the operations of the Terry Companies and the Terry Foundation. Despite his series of remarkable success in business endeavors in many fields, he often refers to the Terry Foundation as his finest achievement.

Nancy M. Terry

Nancy Terry is a native of New York State, born in Ogdensburg on the St. Lawrence River. She attended the School of Nursing at the University of Rochester, New York, where her hobbies included snow skiing, ice skating, swimming and antique collecting.

She subsequently relocated to Texas and for over thirty years has been married to Howard L. Terry, with whom she founded the Terry Foundation in 1986. Mrs. Terry is active in Foundation events and in the annual interviews in which the new Scholars are selected. Her principal interests now include golf, art, interior design, gardening, politics, her family, her dog, and the Terry Scholars.
Rhett G. Campbell was born in 1948 in Wichita Falls, Texas, but spent much of his life in Duncan, Oklahoma, before leaving to pursue his higher education. He holds both a B.A. (1970, with high honors) and J.D. (1973, with honors) from Southern Methodist University. While at SMU, Rhett was honored as a Hatton Sumners Scholar and as a member of Phi Beta Kappa, Order of the Coif, and Order of Barristers.

Campbell was commissioned as a lieutenant in the U.S. Air Force in 1970, and served on active duty as a captain in the Judge Advocate General Department from 1973 through 1977, including service in Southeast Asia and on the faculty of the United States Air Force Academy. He was a founding member of the Houston law firm of Morris & Campbell in June, 1977, and has practiced at the firm from that date to the present. Campbell is board certified by the Texas Board of Legal Specialization in civil trial (since 1982) and in business bankruptcy (since 1989).

Campbell served on the original Terry Foundation Board and has worked closely with Mr. and Mrs. Terry in the management and direction of the Foundation since its inception in 1986. He was named Chairman of the Foundation Board in 2000. He is married to Susan V. Seybold, a Houston native and a pediatric dentist. They have three children and are members of St. John the Divine Episcopal Church. They enjoy saltwater fishing and are active members of the Houston Civil War Round Table.

Edward T. Cotham, Jr.

Ed Cotham serves as President of the Terry Foundation and assists Mr. Terry in managing the financial aspects of the Foundation. He holds an undergraduate degree in Economics from the University of Houston and a Masters Degree in Economics from the University of Chicago. A native Houstonian, Ed returned to Texas and obtained a law degree from the University of Texas in 1979.

After working as an attorney at Gulf Oil Corporation for a number of years, Ed joined Rhett Campbell in the practice of law until 1990, when he became the General Counsel of Terry Petroleum Company. He was named President of that company in 1993 and now manages an investment portfolio that ranges from oil and gas properties to stocks and bonds.

Cotham's interests include music and history. He has served as President of the Houston Civil War Round Table and is the author of Battle on the Bay: the Civil War Struggle for Galveston, which was published in 1998 by the University of Texas Press. Ed and his wife, Candy, have one pre-school age son and reside in Houston.
JOHN W. STORMS

John W. Storms is the Managing General Partner of Storms & Critz, Certified Public Accountants, of Houston, Texas. From 1978 until 1984, Storms was President and Chairman of Storms, Werlein & Harris, Inc. P.C., Certified Public Accountants, and from 1984 until 1988 he was the General Partner of Contal Interests, Ltd., a small investment company.

Storms is an independent director of Equus II Inc., a director and officer of the Terry operating companies, and has been a director and an officer of other entities involved in various activities including banking, oil and gas, real estate, and restaurant operations.

John has served as Chairman of the Board of Houston’s Chapelwood United Methodist Church and as Vice President of the Board of the Houston Zoological Society. He was formerly the Board Chairman for Child Advocates of Houston, Inc., where he remains active as a Board Member, and is also currently a Board Member of National CASA Association.

Storms is a Certified Public Accountant and holds a Bachelor of Business Administration degree from the University of Texas and a Master of Business Administration degree in taxation from the City University of New York.

John and his wife, Charlene, reside in Houston and are parents of two grown daughters. Their hobbies include tennis, golf, and their grandchildren.

DARRELL K. ROYAL

Darrell Royal was 32 years old when he was named head football coach at the University of Texas in 1956. His innovative style of football produced almost immediate success: over 23 years, Royal’s teams never had a losing season and his team went 167-47-5 in his 20 years at Texas — the best record in the nation over that period. Royal’s teams finished in the top 10 nationally 11 times with three national championships, 11 Southwest Conference championships, and 16 bowl games.

Royal resigned from the football head coaching job following the 1976 season, and remained as Director of Athletics for three years. In January 1980, Royal left the athletics department and became Special Assistant on Athletic Programs to the president. In 1983, Royal was inducted into the National Football Hall of Fame.

Royal has enjoyed a personal friendship with Mr. and Mrs. Terry for many years. He was instrumental in helping the Terrys with the formation of the Foundation and has served
on the Foundation Board since its inception. Royal holds a B.S. in Business from the University of Oklahoma. He is married to the former Edith Marie Thomason and they reside in Austin.

**Robert Carter Overton, III**

Carter Overton is the President and C.E.O. of JMI Energy, Inc. of Houston, Texas. He worked previously for Terry Petroleum Company from 1984 to 1992, with his last position that of Vice President of Operations. He also is the majority owner of Renaissance Resources, Inc. and Managing Principal of JMI Energy Associates.

Overton received his B.B.A. in Petroleum Land Management in 1983 and his M.B.A. in 1985, both from the University of Texas. As a two-year letterman on the University of Texas Track and Field Team, he set a school record in the Decathlon in 1983.

Overton is a former member of the Development Board of the UT Health Science Center in Houston. He is Chairman of the Deacon Body at River Oaks Baptist Church and is on the Board of River Oaks Baptist School and its Endowment Fund. He is a member in the Century Club of the UT Graduate School of Business, and the Texas Ex-Student's Association. He also serves on the Board of Texas Business Hall of Fame and is Chairman of the Board of Trustees of the United Church Athletic League. His interests include hunting/fishing, ranching, and recreational sports. He and his wife, Tine, reside in Houston with their two daughters.

**James D. Davis**

Jim Davis is a Principal and Consulting Actuary for Milliman & Robertson in Dallas. In addition to working directly with senior management, accounting departments, and human resources departments of many employers, he oversees each of the consulting units that currently operate in the Dallas office. Jim's technical expertise is as a pension actuary and retirement consultant. He is a frequent speaker to groups and professional organizations on current trends and retirement and other employee benefits areas.

Jim was raised in Quitman, Texas, named a Terry Scholar in 1989, he went on to attend and graduate from the University of Texas in 1993. He received a Bachelor of Arts degree in Economics (with Highest Honors) and his academic performance resulted in election to Phi Beta Kappa.

Upon graduation, Jim joined Milliman & Robertson. Professionally, he has attained Fellowship in the Society of Actuaries and Membership in the American Academy of
Actuaries.

Jim was named to the Foundation Board of Directors in 2000, one of the first Alumni Scholars to be elected to the Board. Jim lives in Dallas with his wife, Stephanie, and their three daughters. Outside of work, he enjoys golf, investing in the stock market, and participating in church activities. In particular, he appreciates the opportunity to give considerable time and energy back to the Terry Foundation.

Yvonne Moody

Yvonne Rode Moody takes great pride in having been named one of the original Terry Scholars as a part of the first class in 1987. Active in Foundation events since graduation, Yvonne was named to the Foundation Board of Directors in 2000, one of the first Alumni Scholars to be elected to the Board.

Yvonne received a B.S. in Mechanical Engineering from Texas A&M in 1991, where she was a two-year letterman on the Women's Cross Country team. After graduation, she worked for eight years with Chevron as Construction Project Manager for the Houston Retail Marketing group. Her most recent position is full time Mom to pre-school age daughters, Amber and Ashley.

Yvonne is a native Texan, born and raised in Fredericksburg, where she honored Fredericksburg High School by winning 1986 state championship in Class 4A 1600m run. She and her husband, Ted, reside in San Antonio, where he is Chief Financial Officer with HCA - The Healthcare Company and Financial Officer with HCA - The Healthcare Company and they are members of Zion Lutheran Church. Yvonne enjoys reading, the outdoors, time with her family, youth and music ministry at her church, and talking to young people about careers in engineering.

Administrator

Beth Freeman has served as Administrator for the Foundation since its inception. A native of Louisiana, Beth worked in several legal and administrative positions before joining the Terry operating companies in 1983 and being named Foundation Administrator in 1986.

Beth serves in a pivotal role for the Foundation, coordinating the annual Foundation events and managing Scholar relations with the Foundation. She serves as coordinating manager for the annual multi-site spring interview process when new Scholars are selected and serves as the Foundation liaison with the Offices of Student Financial Aid at both universities.
The Foundation Staff includes Barbie Tyler, Brandy Skillern and Robert Parker.
