The Terry Foundation is nearing its nineteenth anniversary and what began modestly in 1986 is now the largest private source of scholarships for a growing number of Texas public universities. Fall of 2004 brought an historic landmark for the Foundation in the first expansion of the scholarship program to universities other than the University of Texas and Texas A&M University.

In 2003, for the first time in its history, the Board of Directors approved the expansion of the Terry Foundation Scholarship Program to the University of Houston and to Texas State University-San Marcos. The first Scholars for UH and Texas State were selected at interviews in April, 2004 and began college last fall. The Foundation is pleased to welcome these outstanding institutions to the Terry program.

In April, the Foundation selected a total of 169 new 2005 Scholars. We are indebted to our Scholars and Scholar Alumni who joined the members of our Board of Directors in serving on the panels to select the new class. This new class, when combined with our existing Scholars, will bring the total number of active Terry Scholars to more than six hundred students.

The spring of 2005 also brought graduation to 111 Terry Scholars, many of whom graduated with honors. They join a growing body of Scholar Alumni that now numbers over 750.

On behalf of the Board of Directors and the Foundation staff, we would also like to thank the staffs at Texas State University-San Marcos, the University of Houston, Texas A&M University, and the University of Texas for their invaluable assistance during our annual interview process in Austin, Houston and Dallas.

Remember, the harder you work, the luckier you get!

Howard L. Terry
July 15, 2005

MANY STARS COME FROM TEXAS.

During the 2004-2005 academic year, six hundred two outstanding young Texans attended four of the state’s finest universities as Terry Scholars. Their names appear on the cover of this publication.

The Terry Foundation's goal is to improve and develop the State of Texas by assisting Texas students to attend the state's finest public universities. The Foundation hopes that these students will have a significant impact on the future leadership of the state and nation. To achieve this goal, the Foundation awards full scholarships to students who meet the high standards set by the Founders.

What began in 1986 as a small scholarship program is now the largest private source of scholarships for the University of Texas, Texas A&M University, the University of Houston and Texas State University-San Marcos, with over 600 Terry Scholars enrolled. But its origin was neither large nor legendary — and as humble and low-profile as the Founders whose name it bears.

The Terry Scholarship Program was born of a desire of Howard and Nancy Terry to help young people to help themselves. A longtime resident of Houston, Howard Terry had been active for many years in banking, construction, real estate, and oil & gas. With profound business success over the decades and their family's needs met, the Terrys developed a growing desire to give back to the community and, specifically, to help young people to reach their goals in higher education.

In 1986, the Terrys began considering a variety of options in their desire to make a lasting contribution to the future of Texas higher education. After evaluating ideas as varied as university campus construction projects and endowed-chair faculty positions, the Terrys were still not satisfied. Knowing that universities are more than buildings and classrooms, Howard Terry had repeatedly declined to allow the universities to honor his previous contributions by placing his name on campus structures: “Mortar and bricks will eventually be torn down,” he reasoned. The Terrys believed, in the long term, that a university, like the state it represents, is only as good as the educated citizens it produces. Thus was born a desire to invest in the students who would attend the public colleges and universities in Texas.

Howard Terry and 1987 UT Scholar Jina Kim at the 1991 Winedale Picnic. In the early years of the Foundation, all the Scholars at the annual picnic could sit together around just a few tables.

The Terrys’ desire to help young people was influenced greatly by Howard Terry’s own college experience: he had attended the University of Texas on an athletic scholarship, where he was captain of the football team and graduated in 1938. His family origins in Cameron, Texas were modest and it was only through the generosity of others that his college education had been made possible. Mr. Terry never forgot the helping hand that he had received in attending college and was determined to extend that same help to a new generation of students.

After seeking counsel from sources that included former UT coach Darrell Royal (an original Foundation Board Member) and Houston attorney Rhett Campbell (Board Member since inception and now Board Chair), the Terrys determined that their most lasting contribution would be through a perpetual endowment that would provide college scholarships for students who had demonstrated the capacity to become outstanding future leaders and who needed financial assistance to achieve their goals in higher education. From this simple concept, the Terry Foundation was created in 1986 to be the source of a perpetual scholarship program.

The first scholarship recipients, known since then as “Terry Scholars,” were selected at interviews held in the spring of 1987. That original class of seventeen
1987 Scholars were joined in the 1988-1989 academic year by 17 additional recipients. Over the years, the number of Scholars selected has increased, with the most recent Spring 2005 interviews having resulted in the selection of 169 new freshman Scholars. These recipients will join the upper-class Scholars to number over 600 Terry Scholars enrolled for the 2003-2006 academic year.

During the first seventeen years of the Foundation's history, Scholars attended only the University of Texas or Texas A&M University. In the fall of 2004, the Foundation Scholarship Program expanded for the first time, when Terry Scholars were named at the University of Houston and at Texas State University-San Marcos. Strategic future plans call for the program's ultimate expansion to other public universities in Texas.

Since its inception, the Terry Scholarship Program has assisted over 1,300 Texas college students to achieve their goals in higher education. The Foundation Board oversees an endowment now in excess of $125 million and includes two members who are Terry Scholar Alumni. Chartered to exist into perpetuity, the Foundation is designed to continue in the future to provide a greater number of scholarships each year.

Howard and Nancy Terry continue to be active participants in the Scholarship Program that bears their name. It has become larger than they ever imagined, fulfilling in the process their dreams of making a difference in the lives of students across the state.

Despite his extraordinary success in ventures that made the Terry Foundation possible, Howard Terry observes that “the Terry Foundation is the most important thing I've done in my life, because it's enabled me to help more people than I would have ever been able to do otherwise.”
Criteria

The Terry Foundation awards scholarships to Texas high school seniors who have been accepted for admission to the University of Texas at Austin, Texas A&M University at College Station, the University of Houston, or Texas State University-San Marcos. To be selected to receive a scholarship, potential Terry Scholars must demonstrate academic excellence, leadership, and financial need.

Terry Scholars are distinguished by a deep-rooted desire to enrich the general welfare of the community and an established record of leadership. In order to select Scholars with the greatest potential for success, the Foundation’s selection committees focus on candidates with a demonstrated history of involvement in activities, outstanding scholastic achievement, and a well-rounded personality marked by a desire to succeed.

Nominations for Terry Scholarship awards are accepted only from the designated offices at the University of Texas at Austin, Texas A&M University at College Station, the University of Houston, or Texas State University-San Marcos. Nominations are not accepted from any other source.

The Selection Process

Each year in April, the Terry Foundation announces the new class of Terry Scholars after an intense two-step selection process. Early each spring, the universities nominate candidates from the freshman class that will matriculate the next fall. In selecting nominations, the universities adhere to the selection criteria guidelines established by the Terry Foundation.

While the number of nominations and subsequent scholarships has grown substantially since the first scholarships were awarded in 1987, the process to win a scholarship has remained intensely competitive. In selecting finalists, the selection committees at the affiliated universities are limited to a small fraction of the thousands of applications received.

The Foundation administration invites the finalists to formal interviews conducted each spring concurrently in Austin, Houston and Dallas. Finalists meet with a six-member panel consisting of members of the Foundation Board of Directors, Alumni Scholars and current Terry Scholars. The interview panels make the final selections and new Scholars are notified prior to May 1st of the interview year.

In April 2005, the eleven interview panels met with 352 finalists for the final selection process. Of those finalists, 169 were selected for Terry Scholarship Awards.
The Stipend

The Terry Scholarship Award holds the potential to be a full, four-year stipend. Initially, the scholarship is awarded for a Scholar’s first year of college and is renewed annually at the discretion of the Board of Directors. In order to continue as a Terry Scholar, a student must maintain a cumulative 2.5 GPA, meet the requirements for mandatory attendance at specific Terry Foundation events, and fulfill other reporting requirements.

The Terry Foundation seeks to provide adequate financial support for each Terry Scholar so that students may concentrate on academics and college-related activities, without having to incur any debt to finance their education. In addition, the Scholarship Program is designed to eliminate the need for Scholars to work during the college years.

The amount of the stipend is based on the full cost to attend the universities, including tuition, fees, books, on-campus room and board, and miscellaneous expenses. Over the years, the amount of the stipend has increased each year due to rises in cost of living and tuition. The actual specific amount of the stipend will vary for each Scholar, depending on other scholarship awards and the Scholar’s family’s ability to contribute to the cost of college.

Funding

The Terry Scholarship Program is funded by the earnings of an endowment that has been provided solely by the Founders and is managed by the Terry Foundation. The current endowment is slightly in excess of $125 million. The Foundation is structured to exist into perpetuity and anticipates additional growth based on incremental endowment by the Founders.
The privileges and responsibilities of Terry Scholarships extend far beyond the college year. Below, several Terry Scholar alumni share their achievements, aspirations, and some fascinating details of their professional and personal lives after graduation, illustrating their commitment to the Terry Scholar challenge to "give back" to the community.

Derek Castillo is now a Sports Anchor and Reporter for KXAS-TV, Dallas-Fort Worth and Host of Raceweek, a nationally-syndicated motorsports show. He is a Katie Award winner for best sports program, NBC5's College Football Saturday.

After stints at television stations in San Diego and Philadelphia, Derek is happy to be back in his home state. He has been with KXAS-TV since 2001, covering the Dallas Cowboys extensively (both home and away games). In addition to Raceweek, he also hosts a college football show and anchors school football coverage titled Big Game Friday Night.

Derek is busy, but loves his career. When not working, he spends time with his wife Veronica, and son Jared.

After graduation, Alicia Bowman was accepted to "Teach for America" – a nation-wide organization that strives to end educational inequity in the U.S. As a seventh-grade science teacher in Donna, Texas in the Rio Grande Valley, she reports the "privilege of working with 115 super scientists last year." Her students made incredible progress, starting with a 35% average in the first six weeks and rising to an amazing average of 86% by the end of the year.

She will teach eighth-grade science next year, continuing to work to ensure students in the Valley have the opportunity to attain an excellent education.

After graduating in 1994, Jim Gharib transferred to the University of Hawaii where he received his M.S. in Chemical Oceanography. He is now working on a Ph.D. project in the Geology & Geophysics Department, which he hopes to complete in the next year.

Jim's research has focused mainly on the interaction between seawater and submarine volcanoes. With over 300 days of shiptime to his name, he has descended in a submersible to around 2.5 km deep in the North Pacific, bounced around in a typhoon off Guam in the Western Pacific, and measured pollution coming out of the Amazon river hundreds of miles out in the Atlantic. His most recent expedition took place off the coast of Ireland on the JOIDES Resolution, the drillship operated by Texas A&M.

Jim is married to a fellow Texan and has one child, who was hiking on active volcanoes before his third birthday.
Since earning her degree, Kathy Davis Duggan has worked as an Aerospace Engineer at Johnson Space Center. Most recently, she has supported the International Space Station structural dynamics team, working with Japanese, European, and Russian engineers to coordinate hardware development and integration and resolve technical issues for a variety of space-bound hardware.

Kathy lives in the Clear Lake area with her husband Matt (whom she met in Mission Control at NASA) and their one-year-old daughter Miranda.

After completing graduate school at Utah State, Alan Birkenfeld found that becoming a tenure-track professor was not for him. Instead, he wanted to test his unorthodox ranching ideas, so in 1994 he returned home to Nazareth, Texas.

Alan's enterprise is not a typical ranch; Paidom Meats markets its products as organic and pasture-raised and is about one-tenth the size of most ag organizations in the area, run with only two employees (Alan and his wife). Their initial herd of 11 cows has grown immensely and now includes lambs, chickens, goats, and layers on land that is certified organic. What started with annual sales of a few hundred dollars in 1994 has grown to a quarter million this year.

Alan still makes a few speaking engagements for ranching and marketing classes at universities, but reports that his greatest joys are walking his land, making dinner with his wife Heather, and wrestling with their son Tanner.

After summa cum laude graduation from A&M, Cynthia Brown entered Baylor College of Medicine, where she graduated with honors in 1999. Since that time, she has been at the Johns Hopkins University Hospital in Baltimore, where she completed her residency in 2004. Cynthia was named an Assistant Chief of Service (chief resident) for the year 2003-04, during which time she was responsible for leading and teaching a group of 30 interns during their first year of medical training.

Of this year as a chief resident, Cynthia says, “This was the most rewarding and exhausting year of my life, and extraordinarily fulfilling.”

Cynthia is currently pursuing further medical training in a fellowship program in Pulmonary and Critical Care Medicine at Johns Hopkins. She is focusing her career on research in improving the quality of life of patients suffering from emphysema, but also maintains a clinical practice caring for patients with lung disease.
Houston and the University of Houston have grown together over the past 78 years into international leaders. Today the University of Houston is the country's most diverse research university with nationally-recognized faculty and programs.

More than 35,000 students attend UH in twelve colleges offering 278 undergraduate, graduate, and professional degrees. Students learn from faculty members who hold the Nobel Peace Prize, the Pulitzer Prize, Tony Awards, the National Medal of Science, and numerous national and international awards for their work in the arts, humanities, sciences, engineering, business, law, and social work.

Faculty members conduct nearly $90 million in research in such vital areas as superconductivity, space commercialization, biomedical engineering, economics, biological sciences, education, and petroleum exploration. The university recently broke ground on an $81 million Science and Engineering Research and Classroom Complex, to provide facilities for the many interdisciplinary research programs dealing with BioNanoTechnology.

UH has more than 300 partnerships with government and private industry and is the home of KUHT, the country’s first PBS station; and KUHF, Houston’s NPR station.

Outstanding academic programs mark every area of study at UH: the UH Creative Writing Program is ranked second in the nation by *U.S. News & World Report* and is one of the most competitive programs in the country and one of only two offering a Ph.D. The Conrad N. Hilton College of Hotel and Restaurant Management is the only school of its kind in Texas and is ranked third nationally.

The College of Liberal Arts and Social Sciences' doctoral psychology program is ranked second in Texas, with the psychology and the clinical neuropsychology programs among the top five in the nation, according to the National Research Council.

Students in the Moores School of Music consistently place first in regional and national competitions and the American Educational Research Association ranked the College of Education among the
top schools in the country in research productivity, with special recognition for the pioneering of innovative technologies for teaching and learning.

Six UH students from the UH Gerald D. Hines College of Architecture recently earned multiple awards in the International Competition of Ideas held in Milan and the Cullen College of Engineering’s chemical engineering, mechanical engineering, and civil engineering programs are ranked among the top programs in the nation. A new undergraduate program in biomedical engineering, combined with recent strides in nanoengineering, have poised UH to become one of the premier players in bionano research.

The University of Houston’s Bauer College of Business boasts the top entrepreneurship program in Texas and its accounting department consistently ranks first or second for Texas CPA exam pass rate. Additionally, the Bauer College is one of five U.S. schools with multiple members in the Academy of Management Hall of Fame and the marketing faculty is ranked in the top five percent worldwide.

The UH College of Pharmacy has partnered with the U.S. Food and Drug Administration in a cooperative effort unique in the nation, where students will help to develop and exchange scientific resources and educational opportunities.

The 550-acre UH campus abounds with parks, fountains, plazas, sculptures, trees and recreational fields. In 2003 the University opened one of the nation’s largest and most advanced Campus Recreation and Wellness Centers. The Athletics Department at UH is truly world-class, with over 73 NCAA championships and 53 Olympians.

In addition to campus programs, the UH Distance Education program provides educational opportunities to students in outlying areas – the University of Houston is the largest university distance education program in Texas.

UH has awarded more than 200,000 degrees, and roughly 75 percent of alumni remain in the Houston metropolitan area. At the University of Houston students thrive and new knowledge is created to benefit future generations.

For more than 120 years, students from all over the world have come to The University of Texas at Austin to receive a first-class education. Students who once walked across campus have founded and led Fortune 1000 companies, received Nobel and Pulitzer Prizes, been presented with Academy Awards, hoisted Heisman Trophies and become Olympic gold medalists.

The University of Texas at Austin is recognized for its accomplishments in research, teaching, and public service. It is the flagship of the 15-campus University of Texas System. The university includes a main campus of more than 410 acres with more than 140 buildings.

In addition, the university maintains research centers across the state that place the university's faculty and students at the forefront of study in such areas as nanotechnology, robotics, geophysics, astronomy, marine science, history, literature, and engineering.

The discoveries that happen at the University of Texas impact people all over the world and a groundbreaking initiative called EUREKA (Enhancing Undergraduate Research, Experience, Knowledge, and Access) brings cutting edge research opportunities directly to undergraduate students - including freshmen. Students also experience centuries of history on campus by studying...
prehistoric fossils at the Texas Memorial Museum, gazing at Renaissance and Baroque paintings in the Blanton Museum, thumbing through original manuscripts by Ernest Hemingway and T.S. Eliot at the Ransom Center, or reliving the turbulent 1960s with a visit through the Lyndon B. Johnson Library and Museum.

The faculty of UT Austin is composed of 2,721 professors and lecturers supported by approximately 2,947 assistant instructors and teaching assistants. They include the winner of the 1967 Pulitzer Prize in History; a recipient of the 1968 Enrico Fermi Award; the 1970, 1991, 1993, and 2000 National Medal of Science recipients; and the winner of the 1979 Nobel Prize in Physics. The university has 1,197 endowed academic positions – 279 chairs, 503 professorships, 21 visiting professorships, 127 lectureships, and 267 fellowships. From the efforts of individual faculty members to the work of 86 organized research units, scholarly inquiry covers a broad range of disciplines – literally spanning the known universe from the inner workings of atomic nuclei to the far reaches of space.

In addition to teaching and research responsibilities, faculty members maintain regular office hours and many serve as academic advisers to students. Although UT Austin is a large university, most classes are small enough to allow for considerable faculty and student interaction.

The university seeks to maintain a diverse student body united in its pursuit of higher education. In the 2004 fall semester, the university enrolled about 50,000 students from richly varied ethnic and geographic backgrounds. Every day UT graduates make a difference in their communities as volunteers, teachers, journalists, artists, engineers, business leaders, and lawyers. With world-renowned faculty, top-rated academic programs, successful alumni, and such an enticing location, it's no surprise that The University of Texas at Austin ranks among the best universities in the world.

Campus Orientation

Terry Scholars at each of the four universities gathered on campus in Houston, Austin, College Station and San Marcos for the Foundation’s annual orientation programs. These events were held in late summer, just prior to the start of the fall 2004 semester.

For new freshman Scholars, the orientation is designed to focus special emphasis on the challenges faced by first-year college students. The day’s events included presentations on the Foundation scholarship program by Board Chair Rhett Campbell and President Ed Cotham. The Scholars also met with members of college administration and with invited guest speakers in the fields of time management and study skills.

At the University of Houston and Texas State University, the inaugural classes of Terry Scholars met for the first time with their new fellow Scholars and with members of the university and Foundation staffs. Plans were initiated for the Terry Scholar organizations at each university and the Scholars later enjoyed an informal dinner and networking at the first Terry Foundation event on each campus.

At the University of Texas and Texas A&M, the orientation program also included career seminars for upper-class Scholars. The students attended seminars on preparation for graduate school and post-baccalaureate careers which featured counsel from professionals in the work force, many of whom came from the growing body of Terry Scholar Alumni.

At the end of the orientations in Austin and College Station, freshmen and upper-class Scholars met together with representatives of the two on-campus Terry Scholar organizations and enjoyed informal dinner and networking with fellow Scholars. The Terry Scholar Student Association (at the University of Texas) and the Terry Foundation Student Organization (at Texas A&M University) organized and hosted the activities.
Scholar Ryan Mansell sports his newly acquired hot-pink mohawk at the 2004 A&M Orientation.

Rakesh Apte, Ian Alexander and Monica Suliman collect their nametags. 2004 UT Orientation.

The Fall Banquets

In October of 2004, Scholars were hosted by the Foundation at the annual fall dinners. Foundation Board Members and staff joined the Scholars and university guests in elegant settings on each of the four campuses for the annual banquets.

The banquet at Texas State University-San Marcos was held in a dramatic setting overlooking Bobcat Stadium and was highlighted by the remarks of guest speaker Texas State University President Dr. Denise Trauth. Scholars enjoyed dinner with Foundation Board Members and fellow Scholars and the Foundation was pleased to also welcome members of the university executive administration.

Later in the month, the University of Houston was proud to invite the Foundation to the Hilton College of Hotel and Restaurant Management for the UH banquet. Scholars greeted Howard and Nancy Terry and enjoyed dinner and networking with the Directors and fellow Scholars, highlighted by the address of guest speaker Dr. Ted Estess, Dean of the UH Honors College.

The banquet at College Station was held in the beautiful Jon L. Hagler Center on the campus of Texas A&M. Aggie Scholars were hosted by the Foundation for a pre-dinner reception with the members of the Foundation Board of Directors and the A&M administration, followed by dinner that included remarks by the student leaders of A&M’s Terry Foundation Student Organization.

Later in October, the elegant Alumni Center at the University of Texas was the site of the banquet in Austin. UT Scholars enjoyed an evening of fine dining and fellowship hosted by the Terrys. Scholars joined the members of the Foundation Board of Directors and staff and invited guests from the University administration for the annual event.
2005 Interviews

April of 2005 brought the highlight of each Foundation year, when interview panels selected 169 new 2005 Scholars. The finalists came from every area of Texas to interviews held concurrently in Austin, Houston and Dallas.

The interviews in 2005 included candidates nominated by the universities recently added to the Terry Scholarship Program: the University of Houston and Texas State University-San Marcos. At the end of the interviews, the Foundation named 16 additional 2005 Scholars for the University of Houston and 16 Scholars for Texas State University-San Marcos.

Members of the Board of Directors were assisted by 53 Scholar Alumni and current Scholars who served on eleven interview panels. Over the course of the interviews, the eleven panels interviewed a total of 352 finalists nominated by the four universities. The Foundation Board of Directors extends special thanks to those Scholars and Alumni Scholars who assisted on the selection panels, with particular appreciation to Scholar Alumni Gayle Bean Stinson (UT–1987), Doug Stanley (A&M–1990), and Gayle Cerrato Hanz (UT–1988), who served as panel chairs in Austin, Dallas and Houston.

2005 Scholar Alumni Luncheon

Thirty-five graduate Scholars from the greater Houston area gathered in January for the first-ever Terry Scholar Alumni luncheon. The event, hosted by the Foundation, gave the Scholars the opportunity to enjoy a reunion with Howard and Nancy Terry, renew friendships with former college classmates, and network with fellow Scholar Alumni in the Houston area.

Foundation Board Chair Rhett Campbell and President Ed Cotham presented a short program featuring updates on the Foundation’s current operations and highlights of future plans, which include gatherings for Scholar Alumni in other geographic areas of the state.
The Winedale Picnic

The Foundation annual picnic is held the last Sunday in April on the grounds of the Winedale Historical Center near Round Top, Texas. All of the Scholars from each of the participating universities meet together for the only time each year for an informal gathering that honors the graduating senior Scholars.

In April of 2005, Scholars from all four universities gathered for the first time: over 600 current Scholars were joined by the Foundation Board Members and staff, Alumni Scholars and their families, and special guests from the universities. Catered lunch was followed by the presentation of gifts to the graduating senior Scholars. Following tradition, each Scholar took the microphone to speak briefly of their future plans and then, as a group, honored Howard and Nancy Terry with gifts from each school’s class of senior Scholars.

The 2005 picnic was marked by a warm welcome from the A&M and UT Scholars for their new fellow Scholars: the freshmen from Texas State University-San Marcos and the University of Houston. Resplendent in matching hot pink tee-shirts new for the occasion, the new Texas State Scholars were easy to identify.

Bright sunshine and balmy breezes brought a stark contrast to the rain-soaked picnic of 2004 and Scholars from all four universities enjoyed delicious buffet fare from the grills of Becks Prime Catering of Houston.

The picnic in 2005 also marked the first four-team contest in “Terry Olympics,” the annual fun-filled competition sponsored by the Scholar student organizations, won once again by the Scholars from Texas A&M University.

They're off! Texas State Scholars enjoy the Terry Olympics at the 2005 Winedale Picnic.
Texas State University-San Marcos is a doctoral granting university located in the burgeoning Austin-San Antonio corridor, the largest campus in the Texas State University System, and the sixth largest in the state.

Texas State’s 26,827 students choose from 115 undergraduate, 84 master’s, and 6 Ph.D. graduate degree programs offered by seven colleges — Applied Arts, Business Administration, Education, Fine Arts and Communication, Health Professions, Liberal Arts, and Science.

Authorized by the Texas Legislature in 1899, Southwest Texas State Normal School opened its doors in 1903. Over the years the Legislature broadened the institution’s scope and changed its name, in succession, to Normal College, Teachers College, College, University, and in 2003 to Texas State University-San Marcos. Each name reflects the university’s growth from a small teacher preparation institution to a major, multipurpose university. Texas State’s original mission was to prepare Texas public school teachers, especially those of south central Texas. It became renowned for carrying out this mission, but today it does far more.

As the university’s student population has grown — from 303 in 1903 to 26,827 in 2004 — the campus, too, has expanded. The original 11-acre main campus has grown to 429 acres, plus an additional 4,200 off-site acres in ranching, farming, and a recreational camp. Major acquisitions include the 79-acre San Marcos Baptist Academy campus in 1978, 90-acre Aquarena Springs Resort in 1994, 125-acre University Camp on the Blanco River in 1951, and 3,485-acre Freeman Ranch in 1985.
Located on the edge of the Texas Hill Country, where blackland prairies turn into beautiful hills, Texas State enjoys a setting that is unique among Texas universities. The beauty of the crystal-clear San Marcos River and the stately cypress and pecan trees on the campus add to the charm of its picturesque setting. The campus is in San Marcos, a community about halfway between Austin and San Antonio. Its location on the banks of the San Marcos River provides recreational and leisure activities for students throughout the year.

Texas State is nationally recognized for excellence in many academic disciplines. The Geography Department has been ranked the largest and one of the best programs in the nation for many years by the American Association of Geographers. Faculty members in geography, communication studies, business, mathematics and mass communication have been recognized as the best in the nation in their fields. Fourteen faculty members have been honored as Piper Professors, an annual recognition of the top college faculty in the state.

Student teams in debate, advertising, and free enterprise routinely place high in national competitions. The Students in Free Enterprise (SIFE) team won the international competition in 2000 against 700 teams from 15 countries and has placed among the top 20 for eight straight years. The American Advertising Federation student team claimed its second national title win in 2005.

Texas State students in jazz, marching and concert band, symphony, choirs, instrumental ensembles, mariachis and steel drum band maintain schedules of performances across the state and the world. The jazz program has been featured for years at the Mentreux (Switzerland) Jazz Festival. The sound recording technology program, housed at Texas State’s unique Fire Station Studio, is the only degree program of its kind in the Southwest.

With a diverse campus community including more than 26 percent of the student body from ethnic minorities, Texas State is one of the top 20 producers of Hispanic baccalaureate graduates in the nation.

Texas State is also the lead institution of a multi-institution teaching center offering several programs in the greater north Austin area. There are 1,586 students enrolled at the Round Rock Higher Education Center.

The university has granted well over 100,000 degrees over the years. Alumni include Lyndon Johnson, Class of 1930, making Texas State the only Texas institution – and one of only 29 colleges nationwide – to have graduated an American president. Texas State alumni have become leaders in business, education, entertainment, media, literature, the military, law enforcement, government, agriculture, technology, science, sports, law, and health care.

Scholars are welcomed at the 2004 Texas State Orientation.
Texas A&M University, the Lone Star State’s first public institution of higher learning, is one of a select few universities in the nation to boast triple Land-Grant, Sea-Grant, and Space-Grant status.

The 129-year-old university is located in College Station, a medium-sized community approximately equidistant from the state’s major metropolitan areas. Its 5,200-acre campus is one of the largest in the nation, and is the home of the George Bush Presidential Library and Museum, which opened in November of 1997.

Texas A&M has long been known nationally for its school spirit and traditions, including the fact that its students stand throughout football games as the Twelfth Man to symbolize their willingness to suit up and play if needed. More recently, it has expanded its reputation to include national recognition for attracting top students, innovative research programs and exceptional academic programs in a host of areas. In recognition of its strong academic and related research programs, Texas A&M is one of 62 invited members of the prestigious American Association of Universities. It also is home to a chapter of Phi Beta Kappa, the oldest and most respected undergraduate honor society in the nation.

The university’s student body includes some of the country’s brightest men and women. Texas A&M, for example, has consistently ranked among the nation’s top schools in enrollment of new National Merit Scholars. More than 17,000 students hold scholarships, including about 2,500 with major four-year academic scholarships.

Texas A&M continues to have the state’s best graduation rates for any public university for the overall student body, and for African-American and Hispanic students. Its improving graduation rates represent the bucking of a national trend. With 44,435 students as of the fall 2004 semester, Texas A&M ranked as the nation’s
seventh-largest university. Among those students are more than 8,000 graduate and professional-school students. Students hail from all 50 states and more than 120 foreign countries.

Although military training has not been mandatory for more than a quarter of a century, some 1,800 young men and women still choose to participate in the university’s Corps of Cadets. The Corps continues to commission more military officers than any institution, except the service academies.

Texas A&M ranks among the top 10 universities nationally in endowment value, reflecting its ability to support world-class faculty and facilities and other aspects of the academic process. The faculty includes a Nobel Laureate, two winners of the National Medal of Science, and more than 25 members of either the National Academy of Sciences or the National Academy of Engineering. The university’s campus has numerous state-of-the-art laboratories and research facilities, including a research cyclotron, now one of only three of its caliber in the world. The university also has a leading chemical characterization center and various installations that enable it to be in the forefront in biotechnology and numerous other disciplines in the life and physical sciences and in engineering.

The research work of an outstanding faculty in exceptional facilities places Texas A&M high in rankings of major universities by the National Science Foundation. The most recent NSF ranking placed Texas A&M among the top 20, and the value of the university’s research has grown to more than $500 million annually. The research projects supported by that funding encompass all of the university’s academic colleges: agriculture and life sciences, architecture, business, education, engineering, geosciences, liberal arts, science, and veterinary medicine. Homeland security figures prominently in several new programs at Texas A&M with multi-million dollar federal funding support.

Not to be limited by state or national boundaries, Texas A&M is firmly committed to a global reach and perspective. Its international outreach efforts include memoranda of understanding with more than 85 foreign institutions and organizations throughout the world. It opened a branch campus in Qatar in 2003. All costs for building and operating the engineering-oriented campus in the Persian Gulf country are being paid by the Qatar Foundation for Education, Science and Community Development. In addition, Texas A&M operates the Santa Chiara Study Center in Castiglion Fiorentino, Italy, and a facility in Mexico City. Also, many College Station-based multi-disciplinary groups are devoted to enhancing research and scholarship opportunities both at home and abroad.

REFLECTIONS OF THE SCHOLARS

UH Scholars Talia Gaetke, Laura Zavala and Carolyn Barber at the UH post-banquet fountain jump.

UT Scholar Jake Setterbo helps organize the Terry Olympics. 2005 Winedale Picnic.

Chris Oliver, Ashley Davenport, David Brewerton and Amor Saldana. 2004 UT Banquet.

Belinda Bounds, Bonnie Cole, Jennie Darst and Maira Garcia arrive at the 2004 Texas State Orientation.

Amanda Ghagar, Abigail Howell and Lane Roberts. 2005 Winedale Picnic.
ABOUT THE FOUNDERS

Howard L. Terry

Native Texan Howard L. Terry was born in Milam County in 1916. He attended the University of Texas on an athletic scholarship and earned his B.B.A. in 1938. He was employed by Procter & Gamble until 1942, when he entered the U.S. Navy and served as a P.T. Boat commander in the Pacific during World War II. He later returned to Procter & Gamble, from which he was recruited to set up a chain of appliance stores, serving as General Manager until 1951. At that time, Terry went into business for himself in lumber, building, and development, building several residential subdivisions in Texas and other states.

Over the following years, Terry founded several businesses in various fields, including Business Funds, Marathon Manufacturing, Crutcher Resources, Allied Bancshares, and Farm & Home Savings. Beginning in 1979, he became a director and chairman of the executive committee of Penn Central Corp., a position he held until 1986. In 1981, he founded the Terry Companies, a multi-state corporation involved in oil & gas exploration and development.

Howard and Nancy Terry are both long time residents of Houston, Texas. Mr. Terry enjoys golf and is actively involved in the operations of the Terry Companies and the Terry Foundation. Despite his series of remarkable success in business endeavors in many fields, he often refers to the Terry Foundation as his finest achievement.

Nancy M. Terry

Nancy Terry is a native of New York State, born in Ogdensburg on the St. Lawrence River. She attended the School of Nursing at the University of Rochester, New York, where her hobbies included snow skiing, ice skating, swimming and antique collecting.

She subsequently relocated to Texas and for over thirty years has been married to Howard L. Terry, with whom she founded the Terry Foundation in 1986. Mrs. Terry is active in Foundation events and in the annual interviews in which the new Scholars are selected. Her principal interests now include golf, art, interior design, gardening, politics, her family, her dog, and the Terry Scholars.
Rhett Campbell served on the original Board of Directors of the Terry Foundation and has worked closely with Howard and Nancy Terry in the management and direction of the Foundation since its inception in 1986. He was named Board Chair in 2000.

Rhett is a partner in the Houston offices of the Thompson & Knight law firm, where his areas of specialization include civil trial and business bankruptcy. He was a founding member in 1977 of the Houston law firm of Morris & Campbell, where he practiced until 2001. He holds both a B.A. (with high honors) and J.D. (with honors) from Southern Methodist University, where he was honored as a Hatton Sumners Scholar and as a member of Phi Beta Kappa, Order of the Coif, and Order of Barristers.

Rhett is married to Houston native Susie Seybold. They have three children and reside in Houston.

Ed Cotham serves as President of the Terry Foundation, where he assists Howard Terry in the management of the Foundation endowment portfolio and serves as chief operating officer for the Foundation. In 1993, he was named President of Terry Petroleum Company. Prior to joining Terry Petroleum, Ed practiced law with the Morris & Campbell law firm in Houston.

Ed holds an undergraduate degree in Economics from the University of Houston and a Masters Degree in Economics from the University of Chicago. A native Texan, Ed returned to complete a law degree from the University of Texas.

Ed and his wife, Candy, have one son and reside in Houston.
ABOUT THE DIRECTORS

John W. Storms

John Storms has served on the Foundation Board of Directors since its inception in 1986. John is the Managing General Partner of Storms & Critz, Certified Public Accountants, of Houston. John also serves on the boards of other business entities with operations as varied as banking, oil & gas, and restaurant operations. He is also an active member of the board of Child Advocates, Inc. of Houston and is currently an officer and board member of National CASA Association, the national oversight organization for over 900 such entities across the United States.

John is a Certified Public Accountant and holds a B.B.A. from the University of Texas and an M.B.A. in taxation from the City University of New York.

John and his wife, Charlene, reside in Houston and are the parents of two grown daughters and five grandchildren.

R. Carter Overton III

Carter Overton has served on the Foundation Board of Directors since its inception in 1986. Carter is the President and C.E.O. of Llewelin Operating Company, LLC, a Houston-based management and investment company engaged in direct investment in US oil and gas exploration and production. He worked previously for Terry Petroleum Company, where he served as Vice President of Operations. Carter also serves on the Board of the Texas Business Hall of Fame Foundation.

A native Houstonian, Carter received both his B.B.A. and his M.B.A. from the University of Texas.

Carter and his wife, Tine, reside in Houston with their two daughters.
James D. Davis

Jim Davis is a Principal and Consulting Actuary for Milliman in Dallas, where he specializes as a retirement actuary, is responsible for financial oversight of the Southern Region Employee Benefits Practice, and also oversees the consulting groups operating within the region.

A native of Quitman, Texas, Jim became a Terry Scholar in 1989. He graduated from the University of Texas in 1993, where he received a Bachelor of Arts Degree in Economics (with highest honors) and was elected to Phi Beta Kappa.

Jim was named to the Foundation Board of Directors in 2000, one of the first Alumni Scholars to be elected to the Board. Jim has three daughters – Avery, Reagan, and Jami – and lives in Dallas, Texas.

Yvonne Rode Moody

Yvonne Rode Moody was one of the first Terry Scholars, a member of the original class in 1987. She was named to the Foundation Board in 2000, one of the first Alumni Scholars to be named to the Board.

A native of Fredericksburg, Yvonne received a B.S. in Mechanical Engineering from Texas A&M in 1991. She worked for eight years with Chevron as Construction Project Manager for the Houston Retail Marketing Group.

Yvonne’s most recent position is as full-time mom to two daughters, with whom she and her husband, Ted, live in San Antonio.
ABOUT THE FOUNDATION STAFF

Director of Scholar Relations
Beth W. Freeman

Beth Freeman has played a key role in the Terry Foundation since the Terrys established the organization in 1986. Beth joined the Terry Operating Companies in 1983 and was named Foundation Administrator in 1986. For many years, Beth has been the primary liaison among the Foundation Board of Trustees, the Terry Scholars, and the participating universities. She was named Director of Scholar Relations in 2002.

Beth coordinates the annual Foundation events and manages communications with the growing body of Scholars and Scholar Alumni. She supervises the annual spring interview process and serves as the Foundation liaison with all universities.

Foundation Staff

The Foundation staff includes Becky Adams, Robert L. Parker, Barbie Tyler, Jamie M. Skillern and Brandy N. Skillern.
